5.

Two polar bears died because of global warming on the North Pole last summer. Global warming is increasing because humans pollute the environment and cut down trees. Also, factories' harmful gases and cars' exhaust fumes pollute the air.

To stop global warming, we must keep the environment clean and use public transportation. Also, factories should use filters.

Read the text and answer the questions.

- a. Why did the polar bears die on the North Pole?
Polar bears died because of global warming / They died because of global warming / Because of global warming.
- b. When did the polar bears die?
